### ADELONG PS FACEBOOK PAGE

As some of you are aware, we have created a Facebook page for Adelong Public School. Our intent is to grow our school and community's understanding of social media and to make connecting with our school more convenient. We wish our content to be more accessible and to also tap into the knowledge and support base of our parent community. Our school's Facebook page allows our community to keep up to date with activities through a medium preferred by many. Most of all, our Facebook page is a place where we build our community by encouraging school spirit. We ask that our community accentuate the positives and bring to everyone's attention the little things that make our school community great.

We are building this page slowly until it is just perfect for our School, so please have patience. We will be sending home a media permission note next week to all families regarding pictures of their children being posted on this page.

This week our students in 4/5/6 class were introduced to the coding language of Ozoblockly. This form of coding allowed the students to take full control of their Ozobots movement and behaviour. Ozoblockly offers five modes from novice with icon-based blocks to master with support for many low-level functions and advanced programming. Currently our students are working through the novice and beginner levels of cool block programming.
